## EDUCATION

**Imo State University**                                                                                    **Owerri, NG**

*BS in Business Administration, Marketing (GPA: 3.9)*                          *Graduation Date: Sep 2018*

## WORK EXPERIENCE

**Resilient Coders**                                                                                        **Boston, MA**

*Software Engineer*                                                                               *Aug 2022 - Present*

- Designed and developed full-stack web applications focusing on CSS, HTML, and Javascript with different frameworks and packages.
- Collaborated with teams of engineers to design and build responsive front and back-end web applications. Meet all deadlines whilst utilizing best practices.
- Successfully engineered and delivered over 50 full-stack web applications, while maintaining detailed git documentation in a team environment.
- Proficiently refactored and improved existing software applications to correct errors, enhance user interfaces, and optimize performance. Collaborated closely with stakeholders to ensure that the resulting software products met their expectations and requirements.

**Upwork**                                                                                                    **Lagos, NG**

*Frontend Engineer*                                                                             *Feb 2021 - Present*

- Developed and integrated web components to create a responsive user interface ensuring optimal functionality and usability through meticulous development and implementation practices using HTML, CSS, JavaScript, Materialize CSS, Bootstrap e.t.c
- Demonstrated strong collaboration skills by working closely with clients, team members, and stakeholders to ensure successful project delivery. Maintained up-to-date technical knowledge of web front-end industry standards, best practices, and emerging trends.
- Efficiently transformed UX wireframes and mockups provided by the design team into fully functional, responsive, and interactive features, leveraging expertise in HTML/CSS and JavaScript. Collaborated closely with the design team to ensure that the resulting web components accurately reflected their design vision and effectively addressed the needs of end users.
- Developed reusable code and libraries for efficient web development with a focus on scalability and maintainability, ensuring the code, could be leveraged across multiple projects for faster and more cost-effective development, as well as greater consistency and standardization of code.

**Spectranet Limited (ISP)**                                                                          **Lagos, NG**

*Sales Executive*                                                                               *Nov 2018 - Mar 2020*

- Reviewed P&L with sales lead and district manager to identify highest & lowest penetration rates on all products, analyzing all products which increased efficiency of deliveries from store to the customer by 7%.
- Maintained and built relationships with 100+ customers daily, providing exceptional customer service and efficient product deliveries daily which translated to a customer satisfaction rating score of 97%.
- Fostered strong customer relationships with 100+ key accounts yielding a 70% conversion rate of proposals into closed opportunities. Employed exceptional interpersonal and communication skills to engage with clients and understand their unique needs, and goals.
